

NOTES ON DEVICE DF22-05

This instrument is used on circular knitting machines for measure of yarn amount absorbed at each turn of the loom.
 Can be used with feeders MEMMINGER L -- 10 -- 20
 it is composed of four parts :

- 1) main unit with LCD display
- 2) Connection cable , one for on each machine.

It gather signals from the feeders , plus magnetic sensor and power supply functions .

- 3) Magnetic sensor (same of FM8 or C89), one for each machine.
- 4) Feeder sensor specific for MPF--L --10--20

KEY 1 SELECT MEASURE UNIT BETWEEN INCH OR CENTIMETERS
 KEY 2 MAKE THE DISPLAY SHOW THE PROGRAMMED NUMBER OF NEEDLE

IF THE PROGRAMMED NUMBER OF NEEDLES IS ZERO THEN
 THE MEASURE REFER TO THE AMOUNT OF YARN ABSORBED IN A TURN OF THE LOOM.

OTHERWISE IF THE PROGRAMMED NUMBER OF NEEDLES IS BETWEEN 100 AND 9999
 THE MEASURE REFER TO THE AMOUNT OF YARN ABSORBED FOR 100 NEEDLES.

TO PROGRAM THE NUMBER OF NEEDLES ACT AS FOLLOWS:

- 1) PRESS KEY 2 SO THE DISPLAY SHOW THE PROGRAMMED NUMBER OF NEEDLES
- 2) PRESS KEY 1 TO INCREASE THE NUMBER OF THE BLINKING DIGIT
- 3) PRESS KEY 2 TO MOVE TO NEXT DIGIT
- 4) AFTER THE LAST DIGIT PRESS KEY 1 TO CONFIRM THE NUMBER OR PRESS KEY 2 AGAIN FOR REPEAT WITH FIRST DIGIT .
